## Loyola High School Movie Permission Form

---

We will be watching the movie “Fat Man and Little Boy” in Physics class this semester. The movie details the development and deployment of the two atomic weapons (the “Fat Man” and “Little Boy”) developed during the World War II. The movie is rated PG-13. We will discuss the history of the development of the atomic bomb, the scientists involved in this project, the science of atomic energy, and the moral/ethical issues associated with technology in general.

The purpose of this memo is to get permission from you for your son to view this movie in class. Please check the appropriate box below.

Please note that if you wish for your son not to view the movie he will complete an alternate assignment to replace the assignment associated with this movie.

Feel free to contact me if you have any questions.

Sincerely,

Michael Lew  
Physics Teacher
